Sep. 2014 - Jun. 2018

- Engineering Graphics, Ergonomics, Furniture Design, and Design Material & Manufacturing Process.

AWARD & QUALIFICATION

iF, DESIGN AWARD 2021

2021

Certified Industrial Designer

2020

Excellent Graphic Design Award in National College Students Advertising Art Competition

2017

WORKING EXPERIENCE

Freelance Graphic Designer - China Daily in London

Oct. 2024 - Apr. 2026

Designed and created newspaper and commercial booklets for publication

- Developed engaging layouts and typography for commercial print materials.
- Collaborated with editors and marketing teams to align design with branding.

Volunteer Industrial Designer (Remote) - Village Solar, Malawi

Oct 2024 – Apr. 2025

Contributing to the development of locally appropriate solar lighting solutions that support sustainable energy access and community livelihoods. The project focuses on leveraging local resources and production capabilities to create socially and environmentally sustainable outcomes.

- Investigated local materials, production infrastructures, and resource constraints within rural communities.
- Designed solar lighting solutions adapted to local needs, cultural contexts, and manufacturing capabilities.
- Explored opportunities for community-based production models that support women's economic participation and long-term sustainability.

Service Designer, London - London Borough of Richmond upon Thames

Oct. 2023 - Feb. 2024

Provide systematic prevention solutions for future flood issues.

- Developed a systemic solution for flood prevention, integrating multiple service touchpoints.
- Mapped user journeys and facilitated workshops to define and align on final concepts.
- Designed supporting products and touchpoints to ensure a cohesive and implementable system.

Product Manager, Hangzhou, China - Designdo Co.,Ltd (Full-time)

Jun. 2021 - Jun. 2022

Lead teams of 3-5 people and manage projects from design strategy to implementation.

- Led a team of 3-5 designers, managing projects from strategy through delivery across multiple product touchpoints.
- Collaborated with clients and cross-functional teams to define requirements, develop design strategies, and align user, business, and technical needs.
- Guided design quality throughout the process and coordinated with engineering and manufacturing partners to ensure design feasibility and production readiness.

Industrial Designer, Hangzhou, China - Designdo Co.,Ltd (Full-time)

Mar. 2019 – Jun.2021

- Conducted user and market research to support product and interaction design decisions.
- Collaborated with cross-functional teams to develop product design solutions from concept to implementation.
- Created design proposals, presentations, and documentation to communicate ideas with stakeholders.
